**MT30UX**  
3,000kg

**Sit-Down**  
**MT60UX**  
6,000kg

**Sit-Down**  
**MT70-80**  
7,000 - 8,000kg

# Attachment

Side Shifter

Paper Roll Clamp

Bale Clamp

Carpet Boom

Load Stabilizers

Cartoon Clamp

Drum Clamp

Telescopic Crane Jib

## About Yale

**Yale has over 100 years' global experience and strong representation at over 30 locations throughout the Asia-Pacific region. Yale is the part of the Hyster-Yale Group, one of the largest producers of lift trucks worldwide.**

Yale provides a full line of high-quality, high-performance lift trucks including electric, gas, LP-gas, lithium-ion batteries, hydrogen fuel cells and diesel powered lift trucks; narrow aisle, very narrow aisle and motorized hand trucks. Its long history of innovation has included introduction of the industry's first battery powered low lift platform truck, the first fluid coupling transmission and the first hypoid drive axle. As a result, Yale has an extensive product range from 1,000kg capacity warehouse trucks to heavy-duty internal combustion-driven models that can handle up to a 16,000kg load. These products provide the muscle for over 600 end-user applications in more than 770 industries worldwide.

## Parts and Service

**All Yale lift trucks are engineered and built to provide reliability, lasting performance and durability.**

Equally important, they are backed by a regional dealer network which shares the manufacturer's commitment to Yale maintenance and parts support that is highly dependable – and highly competitive – over the whole life of the truck. Yale dealerships provide flexible truck servicing solutions and are linked to one of the industry's most sophisticated parts distribution operations. Yale technicians can also service all major makes and models of lift trucks. So one call to your Yale dealership is all it takes to service your whole fleet, enabling you to maximise uplift and reduce running costs.
